

## Pool Underwater Green Light Led Dive Lights Waterproof Ip68 Led Fishing Lights

Our Product Introduction

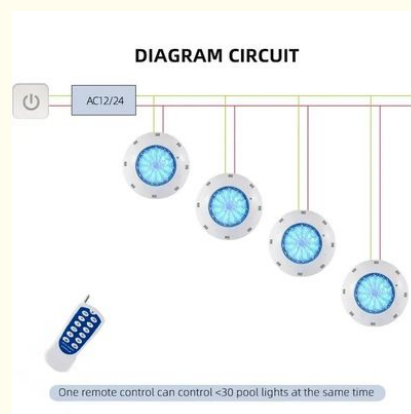

### Basic Information

- Place of Origin: Shandong China
- Brand Name: Sunrise
- Certification: ISO
- Model Number: 521
- Minimum Order Quantity: 500 Pieces
- Price: 16 USD/Piece
- Packaging Details: Negotiated / Standard Package
- Delivery Time: Negotiated / 20 Working Days After Payment
- Payment Terms: T/T
- Supply Ability: 10000 Pieces/Month

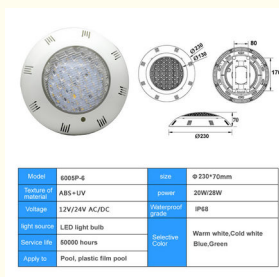

### Product Specification

- Product Name: Underwater Green Pool Led Dive Lights Waterproof Ip68
- Material: Stainless Steel+resined Filled
- Input Voltage(V): 12v
- Working Lifetime(Hour): 50000
- Working Temperature( ): -30 - 50
- Control Way: Remote Control
- Voltage: 12volt
- Size: Dia295mm\*H70mm
- Highlight: Pool Underwater Green Light, Underwater Green Light Waterproof Ip68, Waterproof Ip68 Led Fishing Lights

## Product Description

### Underwater Green Pool Led Dive Lights Waterproof Ip68 Led Fishing Lights

Underwater green pool LED dive lights that are waterproof with an IP68 rating are designed for illuminating underwater environments, such as swimming pools, ponds, or even for scuba diving purposes. Here's some information about these lights:

**Underwater Use:** These lights are specifically designed to work underwater, so they can withstand the pressure and moisture associated with submersion.

**LED Technology:** LED (Light Emitting Diode) technology is commonly used in these lights. LEDs are energy-efficient, long-lasting, and produce bright, vibrant colors.

**Green Color:** You mentioned "green," so these lights likely emit a green-colored light. Green is a popular color for underwater lighting as it can create an appealing underwater ambiance and is often used for aesthetic purposes.

**Waterproof Rating (IP68):** The IP68 rating means that the lights are dust-tight and can be submerged in water up to a certain depth without water ingress. IP68 is a high level of waterproofing, making these lights suitable for extended underwater use.

**Dive Application:** These lights can be used for diving purposes, whether for recreational or professional diving. They help divers see clearly in dark or low-visibility underwater conditions.

**Adjustable Brightness:** Some models may have adjustable brightness levels, allowing you to control the intensity of the light as needed.

**Power Source:** These lights are typically powered by rechargeable batteries. Make sure to check the battery life and charging time when purchasing.

**Mounting Options:** Depending on the design, they may come with various mounting options, such as brackets, suction cups, or straps, to attach them to the pool or other surfaces.

**Remote Control:** Some models may come with remote controls for easy operation and customization of lighting effects.

**Maintenance:** Proper maintenance is essential to ensure the longevity of underwater LED dive lights. Regularly check seals and O-rings to prevent water leakage.

|              |                         |
|--------------|-------------------------|
| Product Name | Led swimming pool light |
| Material     | Plastic                 |
| Power        | 18W                     |
| Voltage      | 12voltage               |
| Type of Lamp | SMD2835                 |
| Model        | WAL-PL18W               |
| size:        | D295*H70mm              |
