

Techium TCM Eging Rod 2.5M M ML Powe Spinning Fishing Rod Octoups Rod

Our Product Introduction

for more products please visit us on fishing-set.com

Basic Information

- Place of Origin: Shandong, China
- Brand Name: Sunrise
- Certification: ISO
- Model Number: 591
- Minimum Order Quantity: 500 Piece
- Price: 30.9 USD/Piece
- Packaging Details: Negotiated / Standard Package
- Delivery Time: Negotiated / 20 Working Days After Payment
- Payment Terms: T/T
- Supply Ability: 20000 Pieces/Month

Product Specification

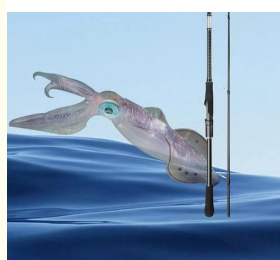

- Product Name: Octoups Rod
- Material: Carbon
- Top Diameter: 1.64mm
- Hardness: Soft
- Category: Lure Rod, Saltwater Fishing Rod
- Fishing Rods Type: Spinning Rods, Squid Rods
- Action: Fast Action
- Position: STREAM, River, Lake, Ocean Beach Fishing, Ocean Boat Fishing, Ocean Rock Fshing, Reservoir Pond

Equipped with anti-corrosion Guides so that there is no problem with seawater and the rings is really light weight

Product Description

Techium TCM Eging Rod 2.5M M ML Powe Spinning Fishing Rod Octoups Rod

Key Attributes

Place of Origin	Shandong, China
Ships From	China
Top Diameter	1.64mm
Hardness	Soft
Position	STREAM, River, Lake, Ocean Beach Fishing, Ocean Boat Fishing, Ocean Rock Fshing, Reservoir Pond
Category	Lure Rod, Saltwater fishing rod
Fishing Rods Type	Spinning rods, Squid Rods
Brand Name	CUSTOMISED
Model Number	591
Material	Carbon
Line	0.4-1PE
Action	Fast Action
Closed Length	129CM
Butt Dia	12.75MM

Packaging and Delivery

Selling Units:	Single item
Single package size:	150X10X10 cm
Single gross weight:	3.000 kg

Key features of an egi rod include:

Length: Egi rods are typically shorter than conventional fishing rods, usually ranging from around 6 to 9 feet in length. The shorter length allows for better control and casting accuracy when targeting squid.

Action: Egi rods come in various actions, including fast, medium, and slow, depending on the specific technique and preferences of the angler. Fast-action rods provide quick responsiveness for casting and setting the hook, while slow-action rods provide more flex and sensitivity for detecting subtle bites.

Sensitivity: Egi rods are designed to be highly sensitive, as squid fishing often involves feeling for the delicate taps and jerks of squid attacking the lure. This sensitivity helps anglers detect when a squid has taken the bait.

Material: Egi rods are typically made from lightweight and durable materials like graphite or carbon fiber. These materials offer the right balance of strength and sensitivity required for squid fishing.

Guides: The guides on an egi rod are usually designed to accommodate the use of braided fishing line, which is commonly used for squid fishing due to its low stretch and increased sensitivity. These guides are also designed to minimize line tangling during casting.

Reel Seat: Egi rods are equipped with a reel seat where you can attach a spinning reel. The reel seat should be compatible with the size and style of the spinning reel you intend to use for squid fishing.

Handle: Egi rods typically have a comfortable and non-slip handle, which is essential for maintaining a firm grip, especially in wet conditions.
